Hi Peter,

As per our meeting via TEAMs on Friday 16th August please see below a summary of when we are proposing to carry out contamination testing and demolition works on the scheme at Wymondham Rugby Club. As stated at the meeting we can only carry out the contamination testing under the concrete slab once the demolition works have been carried out. Therefore we are proposing that the demolition works are carried out in line with the contamination. I have shown a screenshot below of our pre-construction works and we will submit this with the site investigation works to help support the discharge of the condition. Once the contamination works have been carried out then we will submit the tests in to follow up as supporting evidence to discharge the condition.

We will submit the section 80 demolition notice prior to any demolition works being carried out.

	Demolition Works	18w 4d	01 Jun 21	11 Oct 21
	Electric Disconnection Instructed	1w	01 Jun 21	07 Jun 21
	Groundworkers carrying out TBS works	2d	12 Aug 21	13 Aug 21
	Electrical contract works for TBS	3d	16 Aug 21	18 Aug 21
	UKPN Disconnection works	1w	26 Aug 21	02 Sep 21
	Demolition Instructed	1w	23 Aug 21	27 Aug 21
	Lead in	2w	31 Aug 21	13 Sep 21
	Works	2w	14 Sep 21	27 Sep 21
	Contamination Testing	1w	28 Sep 21	04 Oct 21
	Contamination report and RMS Instructed and Produced (if required)	2w	28 Sep 21	11 Oct 21
	Completion		28 Sep 21	28 Sep 21

Could you please confirm receipt of this email and I will submit against the application formally.

Kind regards

Joe Jackson
