

Scaling this drawing as part of the construction process is something we strongly advise against. We appreciate that there are many other non critical reasons for scaling a drawing, if you wish to, at your own risk, first measure the distance between the red lines to the right.

IF THIS DRAWING HAS BEEN ACCURATELY REPRODUCED THE DISTANCE BETWEEN THESE LINES WILL BE EXACTLY 100mm

DRAWING SHEET SIZE

If output to print, this sheet will be able to deliver the drawings to the scale indicated, on an - A1 SHEET

WE STRONGLY ADVISE AGAINST USING THE DRAWING SHEET SIZE, IN ANY WAY, FOR DETERMINING SIZES OF PROPOSED BUILDING WORKS. THE TOOLS PROVIDED IN THE FORM OF SCALE BARS AND THE PRINT CHECK ARE FOR THIS PURPOSE.
