Dear Will,

Please find a selection of earthworks/excavation record images taken during the Kestrel Way works, for your information.

We can confirm as the main contractor for the project that there were no obvious indications of any contaminants in the subsoils throughout the excavation works.

I have requested McLoughlin for their confirmation of clean subsoils throughout the excavation works.

Let me know should you require further information.

Kind regards,

Barry Godkin  
Project Manager
