

The Chantry Combe Raleigh Honiton EX14 4TQ

We have received a Statement of need from an occupational Therapist to install a Temporary stair lift using the Disability Facilities Grant at The Chantry Combe Raleigh Honiton so the 95 year old mother of the owners can come out of the care home she is in and live at home with them for her remaining years.

The stair lift is a temporary fixture that will be removed once it is no longer needed and will leave no damage or visual proof that it was in place.
