

Dear Sir/Madam,

We have recently received notification of a proposed Construction of Dormers to the front and rear roofslopes regarding 225, Havant Road. This property directly overlooks my property, I am therefore very concerned that it will impose on our privacy. The properties in Dene Hollow are not permitted to have any Dormers installed to their properties probably to protect the privacy of the properties on the Havant Road, can you therefore explain why the same restriction does not appear to apply the Havant Road properties.

Regards
