Case Officer: Summer Sharpe

Customer Details

Name: Mr Quince Parkes

Address: 312 Havant Road, Portsmouth PO6 1PF

Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: We are writing to lodge our strong objection to this planning application .

We live opposite this property.

If the permission is granted to construct dormer windows to the front elevation it will seriously infringe upon our privacy.

The property is in an already elevated position compared to our property. If dormer windows are installed there will be a clear view into our private garden living room and bedrooms.

This will take away the only private garden area we have as we are already overlooked by dormer windows to the side of our property.

We would not object to standard velux windows being installed as these do not provide a view unless sticking your head out of the window!
