Comments

Thank you for your consultation on the above matter. The details sent to us for submission is the written scheme of investigation for the programme of archaeological observation, investigation and recording that was submitted to the HER in January 2021. This document was subsequently approved. As such, this submission is accepted as the approved written scheme of investigation for the archaeological condition. However, I am not in a position to recommend the discharge of the condition until I have received a satisfactory report on the findings of the archaeological scheme. Only when a satisfactory report has been submitted will we consider the condition to be complied with and completed.

I hope that this is satisfactory for your needs, but if you require any further information or clarification, please feel free to contact me.
