Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This area through a public right of way in a picturesque part of Forton. This right of way will more than likely be affected by this proposition. Also 30% of the 41 dwellings. So the other 70% aren't affordable housing!! To a small village in Forton. 70% of people will not be able to afford these houses so it is pointless building.

Also, this build will affect the local cricket club that has stood there for over 100 years!! This is not environmentally friendly at all. Trees that are located in that field have stood there for over 100 years. And the council are willing to cut them down to make way for houses. Shocking.

Another point is that, this ground is very wet. WITHOUT ANY TARMAC being put down! If you had done research you would know that this ground will only flood more and more with the more concrete put down. Think about what you are doing and think about how you are going to affect the livelihood and natural habitat around the local area. Because this council is not!

This ground will only flood more often, where are you expecting all of this excess water to go? onto the cricket field because it doesn't matter about someone else's property? I think not. Because that is what this proposition is clearly stating!
