It is my understanding that this application contains a significant number of low cost houses, something that is desperately needed in this area for the young of the area.

Without the opportunity to purchase such housing young families will have no option but to seek affordable accommodation in larger urban areas such as Preston, increasing that council's burden to provide.

We must maintain the balance of youth within our predominantly rural communities and the provision of affordable housing is a very necessary requirement to achieve this.

I fully support this application because of it's inclusion of low cost housing.
