Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: The standard of refurbishment of libra spaces is outstanding! The place itself is lovely to live in and is of high standards compared to other university accommodations I've previously lived in. It improved my well-being compared to other housing companies due to the increased spaces to spend time with other housemates so I am not always in my room. James has been lovely and attentive and one of the best landlords I have ever had. He has been supportive of any repairs and also very understanding. It was a lovely experience staying in libra spaces and I wish them the best of luck for the future
