Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I believe there are already too many properties of this type in this area where I live. Issues with accumulation of waste are a big problem for these houses (with only a few exceptions) which often end in spilling onto the street - and this is already a massive problem down this little stretch of princes road. Furthermore landlords in my experience of these types of properties do little/nothing to address these problems which negatively affect other residents. I think further properties of this type will only serve to make these types of issues worse.
