Reasons given for Proposal:

T1 Balsam Poplar - Fell - outgrown location

Representations Received:

Considerations:

The tree is situated within the southwestern section of the grounds in amongst other specimens. It is relatively young but already an inappropriate species for its situation and causing damage by way roots. Given the presence of other trees in the area, the removal is not considered to be overly detrimental to the visual amenity of the local area. As such, officers consider the removal to be an acceptable form of arboricultural management.
