Attachments:ufm18.pdfDear Sir or Madam

HSE is a statutory consultee on relevant developments within the consultation distance of a hazardous installation or a major accident hazard pipeline. Planning Authorities should use HSE's Planning Advice Web App to consult HSE on such applications and produce a letter confirming HSE's advice. This service replaces PADHI+ HSE's on-line software decision support tool.

The Web App can be found here;

<http://www.hsl.gov.uk/planningadvice>

All planning authorities were contacted prior to the launch of the Web App with log in details to set up an administrator. This administrator will be able to set up other users within the organisation. If you require details of the administrator for your organisation please contact us.

Planning Authorities should use the Web App to consult HSE on certain developments including any which meet the following criteria, and which lie within the consultation distance (CD) of a major hazard site or major hazard pipeline.

- residential accommodation;
- more than 250m² of retail floor space;
- more than 500m² of office floor space;
- more than 750m² of floor space to be used for an industrial process;
- transport links;
- or which is otherwise likely to result in a material increase in the number of persons working within or visiting the notified area.

There are additional areas where HSE is a statutory consultee. For full details, please refer to annex 2 of HSE's Land Use Planning Methodology: www.hse.gov.uk/landuseplanning/methodology.htm

There is also further information on HSE's land use planning here: www.hse.gov.uk/landuseplanning/
