

**CAUTION: EXTERNAL EMAIL**

Dear Emma,

Further to our e-mail correspondence of yesterday, please find attached existing and proposed block plans revised to include the plan titles 'Existing Layout' and 'Proposed Layout' as requested.

Also please find attached some photos of the fruit trees within the area taken by the client yesterday. Photos Tree N2, Tree NW, Tree S and Tree E are of the same tree (looking N, NW, S and E). This is the only fruit tree directly affected by the proposed garage outbuilding. I understand it to be a Cherry tree but, as is evident from the photos, it is in poor condition.

Tree 2 E is a fruit tree positioned to the rear of the proposed garage outbuilding. As can be seen it is covered in mistletoe. Whilst the intention is to try and retain this tree the significant lean towards the outbuilding may make it difficult.

All other trees shown in the photos are to be retained and won't be affected by the development.

I trust the above provides sufficient information to validate the application and I look forward to confirmation. Should you have any further queries please do not hesitate to contact me.

Many thanks again for your help.
