

Portsmouth Cricket Club

St Helen's Ground, Eastern Parade, Portsmouth, Hampshire, PO4 9RF

Flood Risk Assessment for Proposed Internal Alterations & Upgrading the Existing Elevations.

The site is situated in Flood Zone 1 as can be seen from the Environment Agency map. The site is located within an area of High Risk, as identified by the PUSH Strategic Flood Risk Assessment.

The location covered by this plan is at risk from tidal inundation, through over topping or breach of the existing defences providing flood defence from The Solent.

There is no over night accommodation associated with the location and access is always available for emergency services direct from Eastern Parade.

Floor levels within the proposed development will be set no lower than existing levels AND, flood proofing of the proposed development has been incorporated where appropriate.

Details of any flood proofing / resilience and resistance techniques, to be included in accordance with 'Improving the flood performance of new buildings' CLG (May 2007)

The EA operate a flood forecasting and warning service in areas at risk of flooding from the sea, which relies on direct measurements of rainfall, river levels, tide levels, in-house predictive models, rainfall radar data and information from the Met Office. This service operates 24 hours a day, 365 days a year.

Within Southsea, flood warnings are broadcast via Local Radio and TV Stations. The EA also operated Floodline which can be accessed by dialling 0845 988 1188 and entering quickdial number 0122135 Portsmouth Cricket Club to coordinate and monitor forecasting to maintain safety at all times.
