Comment Details

Commenter Type: Member of the Public

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: The Isle of Wight Area of the Ramblers notes the various improvements proposed for public rights of way in this application and supports those improvements.

It also notes the comment by the Public Rights of Way Service relating to increased use and supports their proposal for further funding.

We would expect the public bridleway A37 to remain open and usable whilst development takes place but, failing that, then a suitable temporary alternative should be provided. We would request a condition to control this.
