### Consultation Comments

Application: WD/D/20/003036

Proposal: Installation of ground source heat pump

Location: WATCOMBE FARM, WATCOMBE FARM ACCESS, FORSTON,  
DORCHESTER, DT2 7AD

With regards to this application i have no objection. The EA's surface water (SW) flood risk mapping indicates that there is a small area of SW flood risk in this area - and although low risk the applicant should be mindful of this.

Regards

Henry Middleton
