Address: Land South Of Blackhillock Substation Keith Moray

Proposal: Installation of a synchronous compensator and ancillary infrastructure on

Case Officer: Neal MacPherson

Customer Details

Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

- Activity at unsociable hours/behaviour
- Affecting natural environment
- Dust
- Inadequate plans
- Loss of privacy (being overlooked)
- Noise
- Road access
- Road safety
- Smell
- Traffic

Comment: I am made to believe this application, having large vehicles driving close near my property.

The noise, smell, will be a nuisance. There is only a dirt track in between my property and the landlords farming fields and barns.

I use that dirt track to go to empty my rubbish at the bins, 

 The council refuse lorry does not drive upto my home, as the track is unsuitable, and deep ditches either side. The track is used for movement of sheep and cows, and farm tractors. I already get a drowning noise from the power station at night, feeling the vibration when I put my head on pillow.

I have only received a neighbour Notification with a very light outline of what is being done. I need a full written meaning of what is planned round my home.
