Re: Discharge of Conditions.

With regards to the above planning application I would like to discharge all 5 conditions.

For conditions 1-3 these are acceptable and you do not need any further information from me.

Condition 4: No development is taking place. There is not going to be a large number of vehicles and site operatives on site, and no unloading of plants and materials and therefore a Construction Method Statement is not necessary.

Condition 5: Refuse storage. Only 2 standard household bins will be required (general waste and recycling), and the location of these in the parking area to the east of the building was shown on submitted Location Plan drawing no. L(9-)01.

I would like to pay the [REDACTED] to have the conditions discharged.

Yours sincerely

Caroline Drainer
