Replacement Rear External Lighting

1.0 Introduction

- 1.1 35, 41, 45 and 53 Warwick Avenue are Grade II terrace properties located on the south-western side of the road. The terrace is located north of the Westway A40.
- 1.2 The properties have been converted into residential flats accessed from a central access core with direct access from Warwick Avenue.
- 1.3 Our client Westminster City Council is looking to Install a replacement wall mounted external entrance light fitting to rear accessed flat units to the respective buildings. No 35 also incorporates an additional side access light fitting to replace the existing defective unit.

Replacement Rear External Lighting

3.0 Impact of Proposed Works

- 3.1 For proposed works please refer to: Drawings 1814-500-102, 105, 106 & 118-S1
Heritage Statement 1814-2020A-
Design and Access Statement 1814-2020-A1-
- 3.2 Prior to this application, consultation has taken place by representatives of Westminster City Council Mechanical and Electrical Services Department and Tom Burke [Head of Design and Conservation North Area Planning] of Westminster City Council to agree principles of the proposed lighting upgrade works to listed properties in the ownership of Westminster City Council, including the current application site.
- 3.3 The application encompasses the replacement of the existing wall mounted external light fittings with a new 'state of the art' LED fitting of similar size and appearance.

The proposed replacement units will incorporate a hooded (eyelid) top section to minimise glare to upper level flats and surrounding buildings, directing the principal point of illumination downwards.

The works constitute required maintenance to the existing building to meet current statutory safety standards for tenanted property and have no significant impact on the structure, fabric or aesthetic appearance of the building and present no contravention to the parameters of the current grade 2 listing.

The fitting will incorporate concealed fixings and re-use the existing electrical supply conduits, or new to match if the existing is found to be defective.
