Other comments:

Although located within the historic core of the settlement in view of the limited scale of the works I would not raise any below ground archaeological issues.

I note that the outbuilding is to be demolished (which is consistent with previous permissions issued) but that whilst it is marked on the 1st edition map and the 1842 tithe map no mention or discussion is offered in this application nor previous committee reports as to the historic character or merits of the outbuilding (if any). I do note that no heritage objection has previously been received and so I would continue to defer to your conservation officer regarding merits or otherwise of a record of the building to be demolished.
