Consultation Comments

Application: WD/D/20/002909

Proposal: Demolition of existing porch and erection of a conservatory

Location: 27 CLAY LANE, BEAMINSTER, DT8 3BX

With regards to this application i have no objection. The EA's surface water (SW) flood risk mapping indicates that there is some SW flood risk at this location - albeit low risk and i am unaware of any previous flood incidents.

Regards

Henry Middleton
