

NORTH ELEVATION AS PROPOSED.

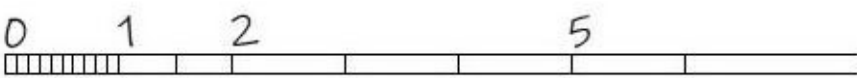

NORTH ELEVATION AS EXISTING.

WEST ELEVATION AS PROPOSED.

WEST ELEVATION AS EXISTING.

Hip and ridge tiles to be removed and set aside for re-use. Strip of existing slate and felt and inspect and make good any defective sarking board.

Existing Velux roof window to be retained.

Re-slate roof with Spanish MATACOUTA natural slate, colour and size to match existing roof. New slate to be laid on u/slate felt. Re-fit ridge tiles.

Form lead roll at junction of roof with no 20 Monreith Road in code 5 lead with secret gutters formed at new and existing roofs.

Matacouta heavy slate is widely used throughout Scotland as an alternative to indigenous scottish stone. The extra depth of the slate blends in with the traditional Balachulish slate which is no longer available, adding character to the building.

BLOCK PLAN 1:500.
