4. Description of Proposed Works

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s):

To carry out maintenance work to the Tower roof. The roof is leaking as a result of irregular and delayed maintenance to the 4nr outlet gullies. This has resulted from a build up of organic matter and lichen at the gully positions. In addition to cleaning out and making good of the gully locations it is proposed to install a glazed 517 x 980mm conservation roof hatch to the Western roof pitch to allow for easy access to undertake regular ongoing cleaning of the gullies. This will remove the need for expensive scaffolding and the potential for damage to the tower stonework and features during erection and dismantle of scaffolding.
