Comments

Hart District Council operates a kerbside waste collection service. This is operated via wheeled containers, which must be left adjacent to the nearest adopted highway for collection on the specified waste collection day.

The proposed development will be required to leave wheeled containers on Chaundlers Croft for collection by 0630hrs on the specified collection day and removed from the highway and returned back to the property as soon as possible following collection.

We would recommend that the property is given an address relating to Chaundlers Croft rather than St Cross Road due to the geographical location of the site - This will avoid confusion with service provision.
