

## Do you need to submit a Wildlife, Geology or Invasive Species Report with your planning application?

*Please remember that anyone causing a wildlife offence (e.g. destruction of a bat roost) can be prosecuted, irrespective of the planning process. Remember to schedule works to ensure no disturbance to protected species, including nesting birds.*

Please fill in Parts Ai and ii, B and C of the table below. The completed table must be included with your application.

**Part A.** If there is a tick in the 'yes' column you must include a **Wildlife Report** with your application. The report may vary from a short written statement (if there is no significant impact) to a comprehensive report with surveys.

**Part B.** If there is a tick in the 'yes' column you must include a **Geology Report** with your application.

**Part C.** If there is a tick in the 'yes' column an **Invasive Species Control Plan** is required.

**All reports must be produced by a consultant with suitable qualifications and experience.** For further information on the reports, including a list of consultants and a generic Wildlife Report brief (which may help when employing a consultant), go to [www.devon.gov.uk/wildlife](http://www.devon.gov.uk/wildlife)

### Wildlife and Geology Trigger Table

| PART A - TRIGGERS FOR A WILDLIFE REPORT  | Yes<br>(Wildlife<br>Report<br>required) | No |
|--|---|----|
| 1a. The application site (red line) is greater than 0.1 hectares*  |   | /  |
| 1b. The proposal:  |   |    |
| i. Involves demolition of a building.  |   | /  |
| ii. Involves works to a roof, roof space, weather boarding or hanging tiles e.g. loft conversion, roof raising, extensions.  | /                                       |    |
| iii. Involves works to a quarry or built structures such as bridges, viaducts, aqueducts, tunnels, mines, kilns, ice houses, military fortifications, air raid shelters, cellars and similar underground ducts and structures. |   | /  |
| iv. Involves the development of wind turbine(s), including domestic turbines.  |   | /  |
| v. Will illuminate / cause light spill onto a building, mature tree (see ix), woodland, field hedge, pasture, watercourse, water body, tree line or a known bat roost.   |   | /  |
| vi. Impacts on a watercourse, intertidal area or standing open water (e.g. ponds, reedbeds) <u>excluding ornamental garden fish ponds.</u>   |   | /  |
| vii. Removes, or moves, part / all of a hedge or line of trees (excluding non native or urban hedges unless > 10m being removed).  |   | /  |
| viii. Is within, or may impact on (including impacts on hydrology), a woodland or a substantial area of scrub connected to a woodland or hedge.  |   | /  |

|   |   |           |
|---|---|-----------|
| ix. Involves surgery to or felling of a mature tree with obvious holes, cracks or cavities, dense ivy, deadwood, bird / bat box (i.e features which may be a bat roost).  |   | /         |
| x. Involves removal of tussocky (rough) grassland, wet grassland, flower rich grassland or heathland (heather/gorse present).   |   | /         |
| xi. <b>** Householders do not need to answer this question.</b><br>May impact directly or indirectly (via a watercourse or air pollution pathway) on a designated wildlife site (Special Areas of Conservation, Special Protection Area, Sites of Special Scientific Interest, County Wildlife Site, Local Nature Reserve, Special Verge).  |   | /         |
| xii. Involves lighting or removal of a tree line, woodland, hedges or pasture within a Greater Horseshoe Bat consultation zone ( <i>please ask the LPA during pre-ap discussions</i> ).   |   | /         |
| <b>PART B – TRIGGER FOR A GEOLOGICAL REPORT</b>   | <b>Yes<br/>(Geology<br/>Report<br/>required)</b>                        | <b>No</b> |
| ** Application impacts on a geological Site of Special Scientific Interest or County Geological Site (RIGS)   |   | /         |
| <b>PART C – INVASIVE SPECIES</b><br>Site supports an invasive species such as Japanese Knotweed. <i>For a list of Schedule 9 non native invasive species see <a href="http://www.legislation.gov.uk/ukpga/1981/69/schedule/9">http://www.legislation.gov.uk/ukpga/1981/69/schedule/9</a> or <a href="http://www.nonnativespecies.org/index.cfm?sectionid=23">http://www.nonnativespecies.org/index.cfm?sectionid=23</a> For more information on Japanese Knotweed see <a href="http://www.devon.gov.uk/japanese_knotweed.htm">www.devon.gov.uk/japanese_knotweed.htm</a>.</i> | <b>Yes<br/>(Invasive<br/>Species<br/>Control<br/>Plan<br/>required)</b> | <b>No</b> |

\* - If you have ticked 'no' to all 1b questions a Wildlife Report will not be required if the LPA confirms in writing that it is reasonably certain that there will be no impact on protected or priority habitats and species.

\*\* - to find out if your site is in, or near, a designated site look on <http://gis.devon.gov.uk/basedata/viewer.asp?DCCService=greeninfra>, or ask the LPA or Devon Biodiversity Records Centre [www.dbr.org.uk](http://www.dbr.org.uk) (there will be a small charge). For County Geological Sites (RIGS) see also [www.devonrigs.org.uk/07DevonSites.html](http://www.devonrigs.org.uk/07DevonSites.html)

**IMPORTANT.....**

- If detailed protected species surveys are required these **MUST** be included with your planning application. The application cannot be validated without them. They cannot be conditioned.
- Some surveys can only be undertaken at certain times of year. It is essential that these are timetabled into your project plan in order to avoid wasting time and money. A survey calendar can be found at [http://www.naturalengland.org.uk/Images/WhentosurveyFINAL\\_tcm6-21620.pdf](http://www.naturalengland.org.uk/Images/WhentosurveyFINAL_tcm6-21620.pdf)
- All details of avoidance, mitigation, compensation and enhancement actions **MUST** also be included with your application. It is very likely that any planning permission will be conditional on these being implemented.
