compound  
depth

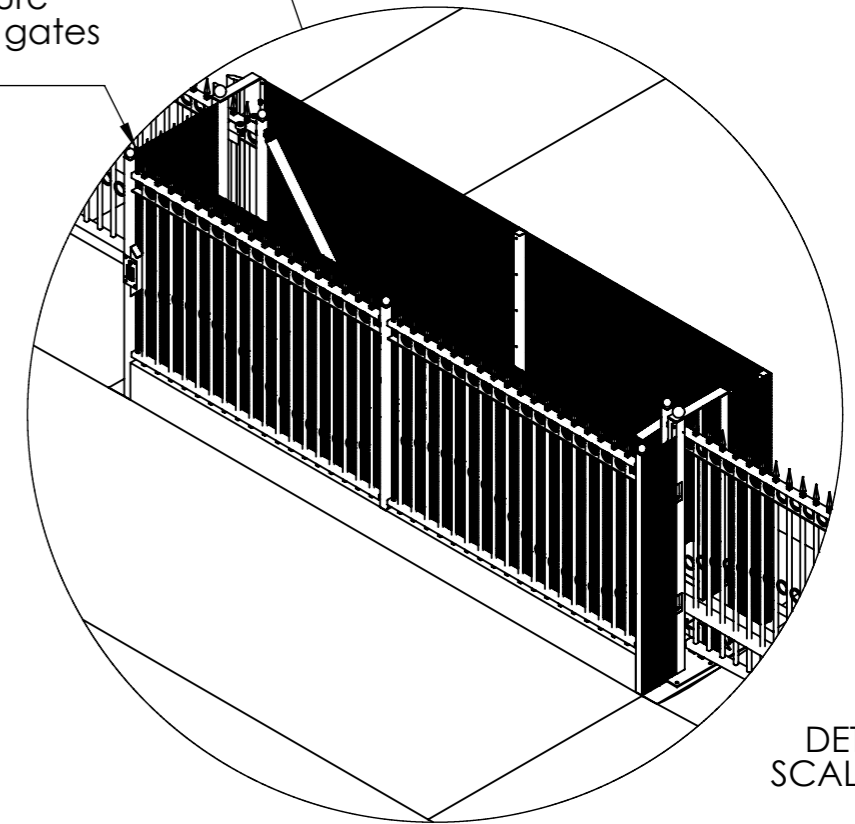

DETAIL G  
SCALE 1 : 20

Compound is clad with 358 Securamesh at matching height, with railing panels on the front elevation, flush to the front of the low brickwall.

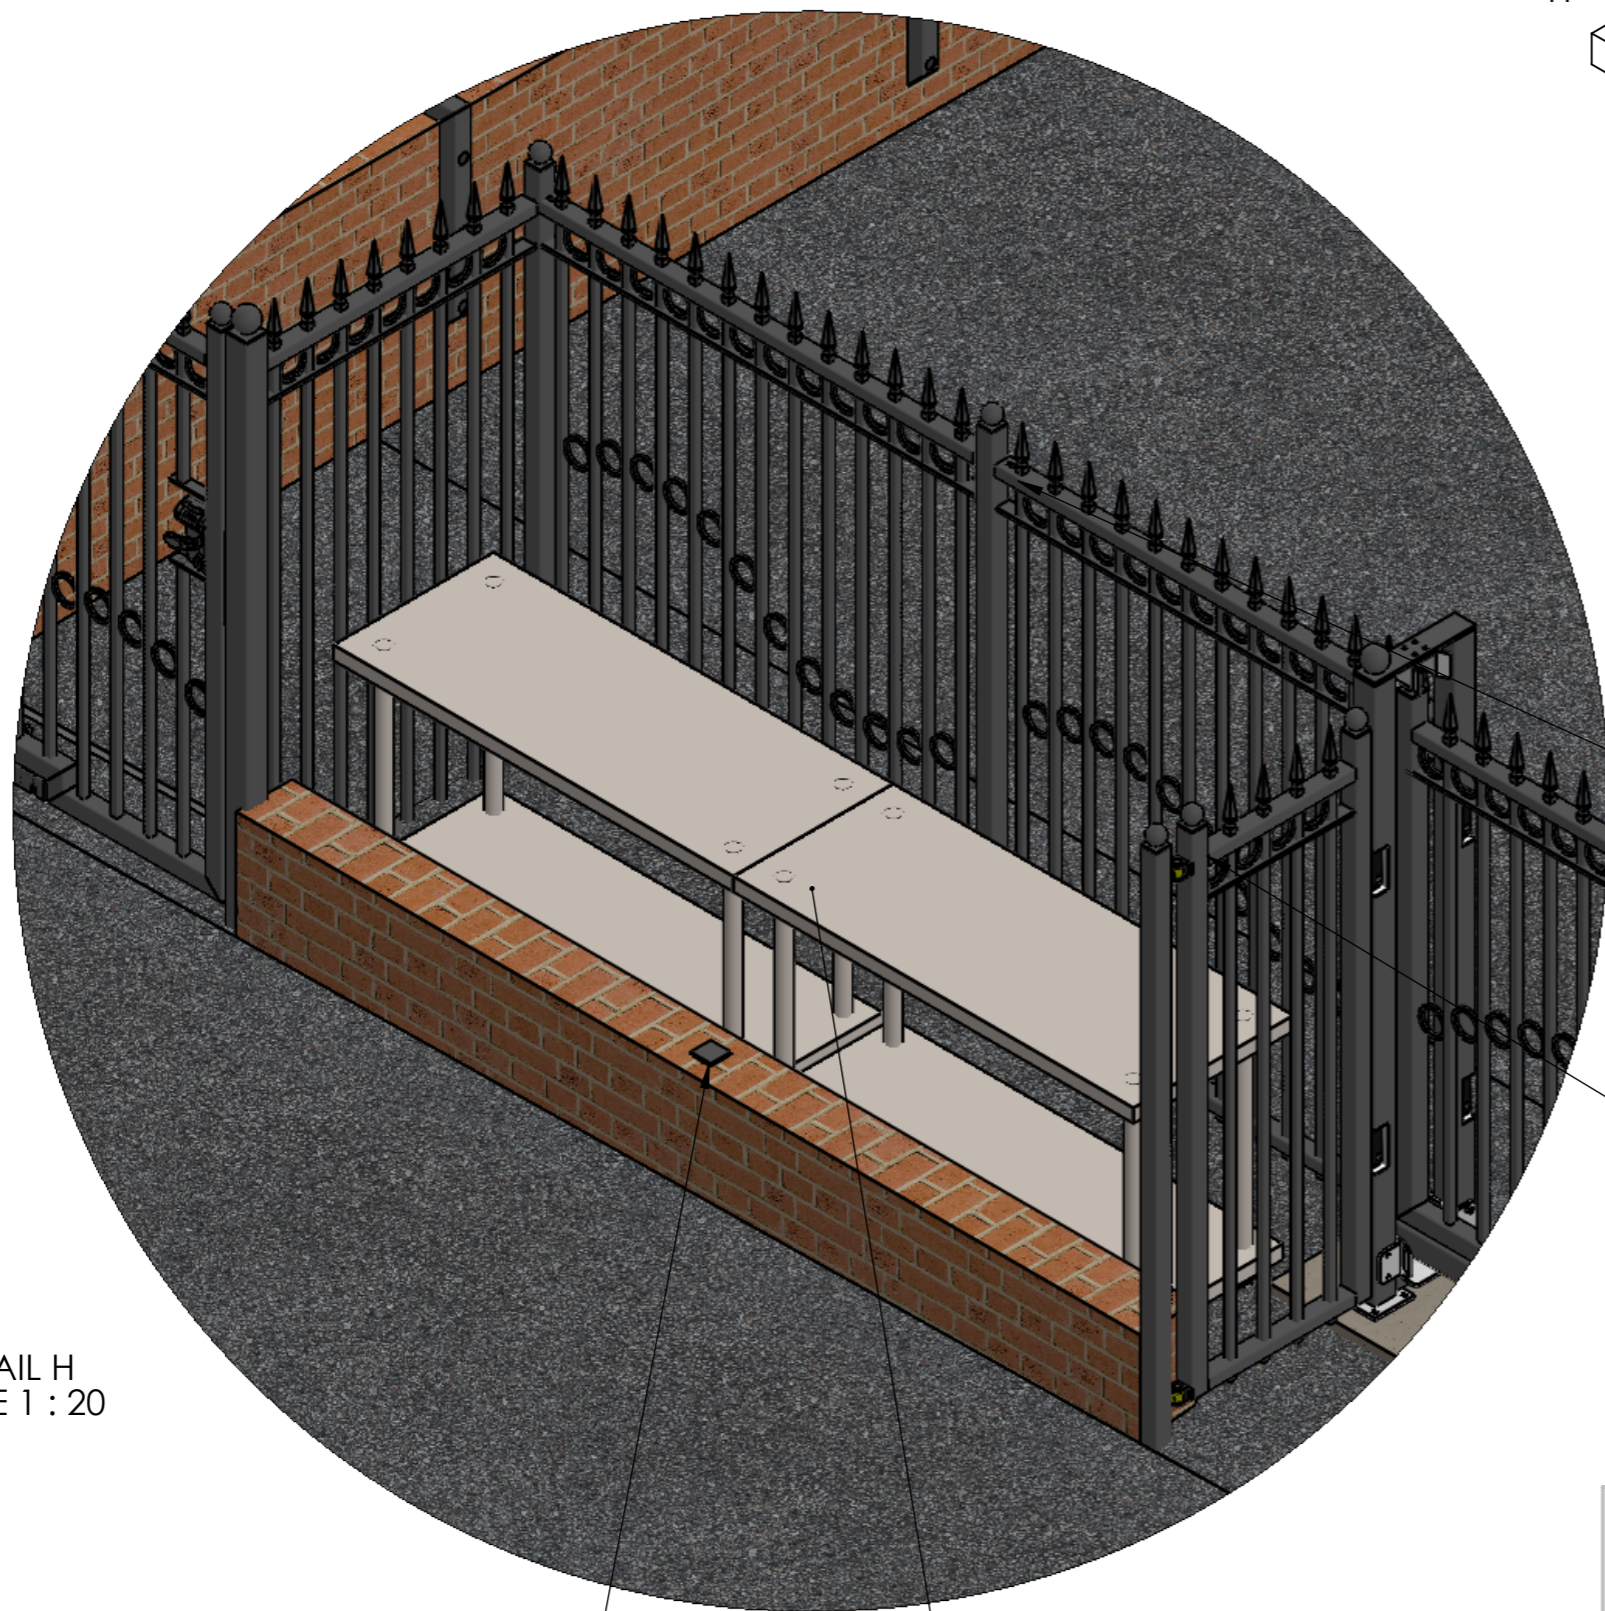

Compound intended to secure both the automated sliding gates when in the open position.

DETAIL H  
SCALE 1 : 20

Spigot built into low brick wall to accept a cranked fence post. At a later date, prefabricated panels can be erected and secured on top of wall, flush to the front face to match other proposed fence panels.

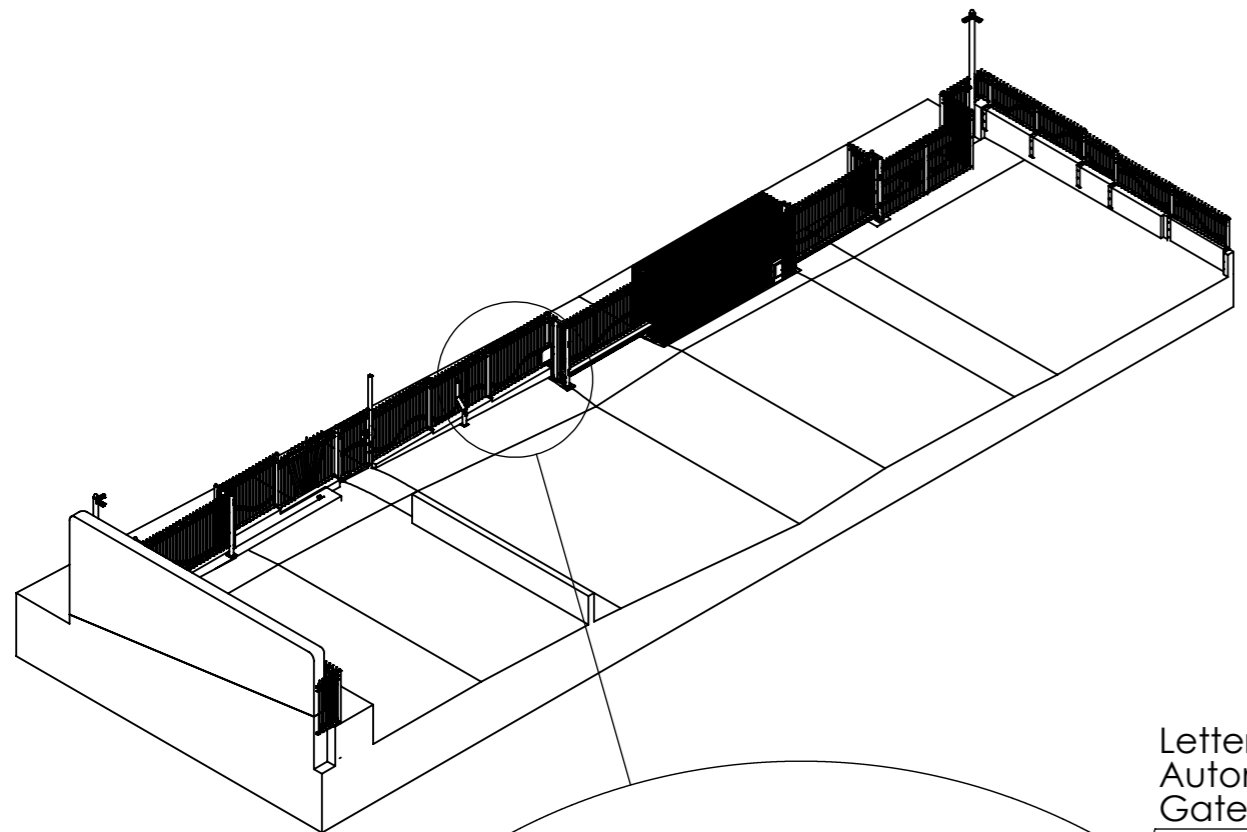

2x Stainless Steel Food Trolleys for donating food to the community.

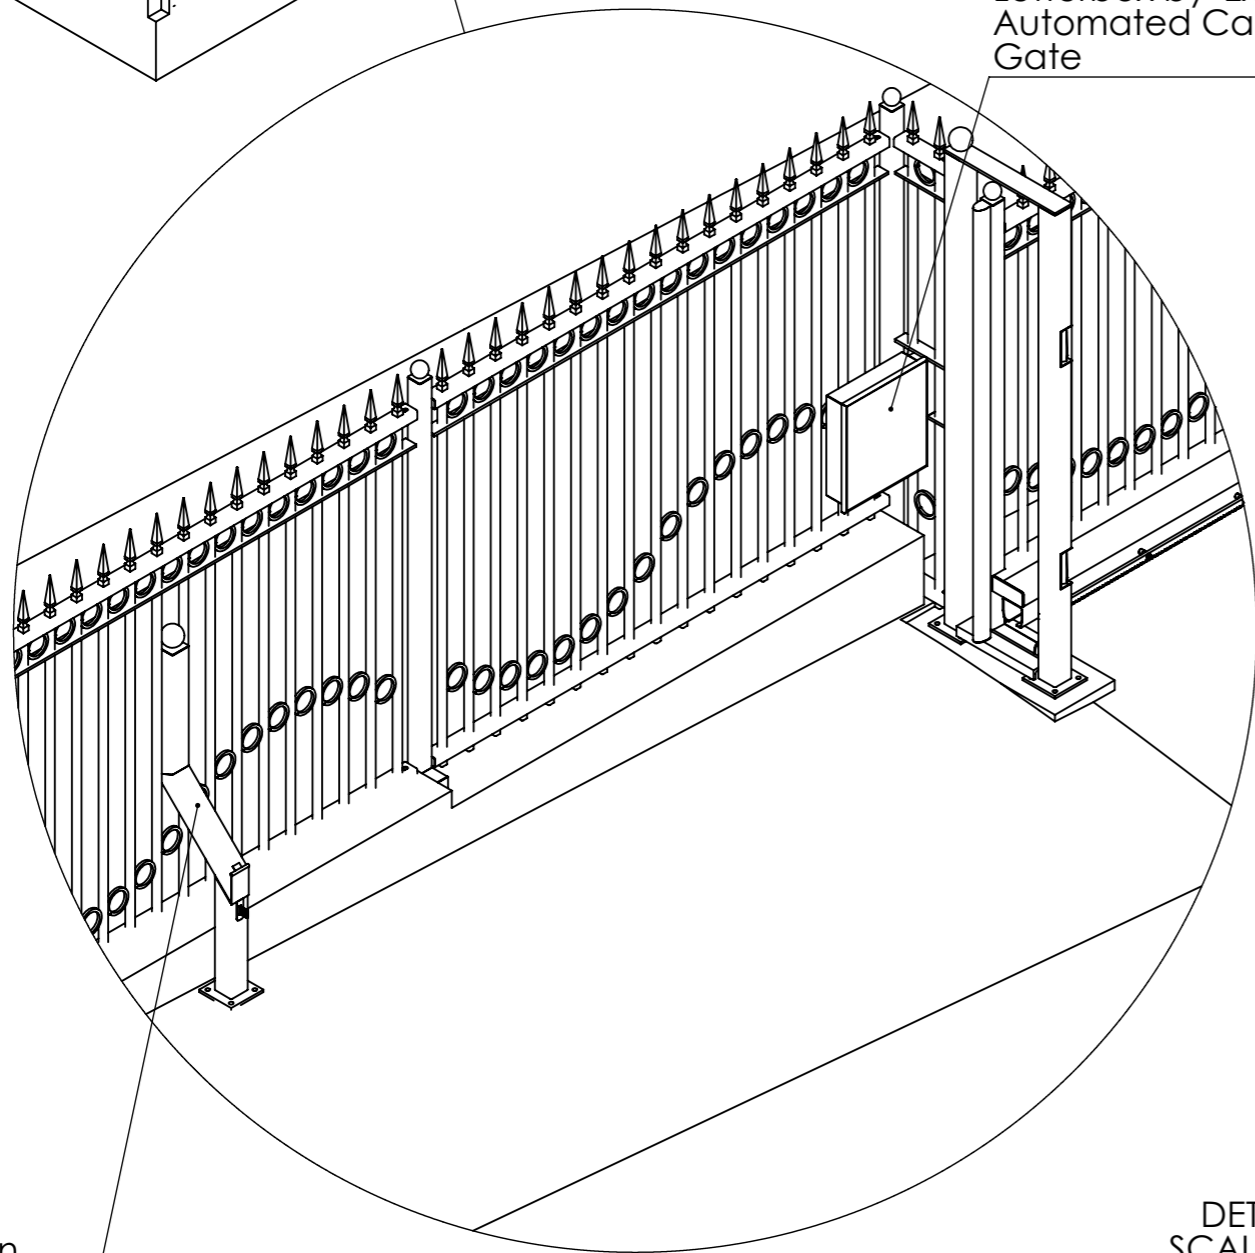

Fence post also secured into a spigot. Fence posts and adjacent panels can be removed at a later date.

Fence panel doubles as a simple gate for removal of Food trolleys.
