Dear Ms Frith

25th January 2021

Thank you for your letter of 22nd January 2021

My opposition to this proposal has not changed .

It will directly affect me and my family as I stated in the following email to Mr Staniforth which was sent in 2017.This objection concerns highway safety issues and has not in any way improved since I wrote to you previously.

Dear Mr Staniforth

Thank you for your letter of 21st August.2017

On Saturday tea time { 19th August } my wife tried to leave our property by car to collect our daughter , the flow of traffic prevented her from leaving for about 10 minutes and she counted over 70 vehicles on her side the road , the flow heading towards Chesterfield was similar.

This is a common occurrence and becomes even worse when there are motorway problems.

This adversely affects the well being of every resident.

Yours sincerely

Liane and Robert Huntley

14 Chesterfield Road

Brimington

S43 1AD

I am also concerned that this application has been able to continue as I understand that the number of objection categories was extensive to say the least and had ensured that the application had finally been refused.

You will have other emails from my wife and I on this proposal raising objections.

Yours sincerely

Liane and Robert Huntley
