Application - DOV/CON/18/00544/B
Location - Land Rear Of 9 Hill Drive, Eastry, CT13 0DU
Proposal - 10 - Surface water

I refer to the above planning application and note that the access and parking area shown on the drainage plan appear to be in a different location to the approved drawings. If this amendment has been approved then the measures submitted to prevent surface water run-off are acceptable, however if not, the amendments will presumably need separate approval first. In particular clarification would be required that the visibility splays previously approved are still available from the relocated access.

Yours faithfully

Richard Smith
Senior Development Planner
