Hi Erika,

Can you please advise if the correct application form is on the portal instead? We've spend some time adding all the supporting material documents to the portal, so could someone migrate it over to our new application?

We will then re send the pdf if this needs to be completed also.

Please could you confirm why the fee is more?

The fee we've paid is for an extension but we're only applying for access / driveway to our existing home, so surely this should be a reduction in cost?

Thanks in advance,

Thanks

Matt
