Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I think the proposed erection of a dwelling on this land would be brilliant for the neighbouring area offering security to neighbouring equine and dwellings opposite. This would be of great peace of mind due to the increased theft cases in the area and generally of equine across the UK!

The proposed property is in keeping with existing properties on the other side of the street and along the road.

It would also reduce carbon footprints travelling to and from the site several times daily to another place of residence.

I therefore am fully supportive of this application.
