0 1 2 3 4 5 M

Replacing 5 x Black Aluminium windows on a like for like basis, with regards to openers, colour and size. Proposed design is a very close match and good alternative to the existing windows specially designed for listed buildings. Only difference being they are double glazed.

Jet Black Aluminium Windows RAL9005M  
 28mm Argon gas filled Double Glazed Sealed Units  
 Black Spacer Bar  
 Leaded Diamonds

Window 2 currently fails fire regulations, so a window design with a floating mullion has been incorporated to comply with current fire regulations.
