Dear Sir,

I have previously today sent a "concern" letter to your office from myself and NOS 17+13 Hazel Avenue.

Having looked at the plans again, photographed and enlarged them, I notice that the rear upper bedroom has French doors and a leaning rail. I think this is known as a "take in the view spot".

Please consider how much of my garden, [private space] has the potential to be overlooked.

Views could be  not .

Whilst the golf club is a wonderful view, our garden is

our private space, or should be!  
Please take this further  
matter under consideration.

Thankyou

Mrs Vanessa Wood.
