Details of the pre-application advice received

The existing pool house currently sits to the north west of the outdoor swimming pool and features a painted render façade, slate roof and timber framed glazing. This proposal includes the demolition of this building and the construction of a new timber clad pool house to the south east of the pool. Whilst I am supportive of the relocation of the pool house, and the general form, design and materials, I do have some concerns over the scale of the building which is significantly larger than the existing pool house.
