5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

There is to be no 'works' be done on the site in reference to this application. Previous owners of the property, Mr and Mrs Goslin, had their retrospective application for conversion of granary to a self-catering residential holiday let, in 1992. We have lived in the property since 2004 and never used the attached granary as a holiday let. (Indeed it was rarely used by Goslin's). We wish to return the upper floor only above the garage to the main part of the house for ancillary domestic accommodation for our family as a bedroom and existing bathroom to be used throughout the year with the current restrictions in place removed . There will be no change or adaptation to the area, simply the desire to allow its return to full usage and no longer a holiday let with the restrictions. Has the work or change of use already started?

6. Existing Use			
Please describe the current use of the site			
Storage and short term bedroom and bathroom for visiting family and friends.			
Is the site currently vacant?	Yes	◯ No	
If Yes, please describe the last use of the site

10. Trees and Hedges

Are there trees or hedges on the proposed development site?	Q Yes	No
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?	Q Yes	No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of your local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

11. Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)	Q Yes	No
If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.		
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?	Q Yes	No
Will the proposal increase the flood risk elsewhere?	Q Yes	No
How will surface water be disposed of?		
Sustainable drainage system		
Existing water course
