Subject: RE: Invalid Planning Application - DC/21/00419

Dear Sirs

Further to your letter 22 January 2021 (see e mail below), we attach documents as requested. The drawings attached either have the scale on the drawing and/or the dimensions of 'structures' are shown. When the drawings are placed in landscape, the top of the drawing is North. This is indicated on 3 of the drawings. Please note, as shown in the bottom right hand corner of the third drawing, the Mendlesham Business park is opposite us, adjacent to the Mendlesham mast. The Business Park is floodlit all night and the mast has 7 sets of red warning lights evenly spaced over its 300m height. Additionally our closest and immediate neighbour, Cherrygate Farm is a poultry unit with lights on all night.

The attached documents show:-

1. The extent of (boundaries). The location of our property relative to surrounding properties and the A140 Norwich Road. The position of the menage, lunge pen, and stables, relative to the boundaries and the A140.

2 The location of the menage and lunge pen relative to the boundary and the A140. Note the field they are contained in is surrounded by trees on 3 sides and by our bungalow and drive on the fourth side. The position of the intended lighting, directs light inward to the menage or lunge pen and is to be inclined downwards at approximately 45 degrees to horizontal in order to light the arena floor.

3. The general location of the stables.

4. Detail of the stables layout and intended bulk head lighting.

We have today paid the £116 fee by electronic transfer and hope you are now in a position to consider discharging the planning condition re external lighting.

Kind regards

Kevin Blatch
