## 6. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Dinsdale court is a 3 storey block of 19 leasehold Flats separated into 3No. cores. To the rear of the building are 3No. steel staircases providing access to the rear of all of the properties.

The proposal is to replace the staircases as the current ones are deteriorating and no longer safe due to age. Works will be to demolish the existing staircases, fabricate new steel staircases to match the existing design as closely as possible (as residents want this) with the inclusion of additional vertical supports as instructed by structural engineer, and install the new staircases.

Works will include any ancilliary works to make good facades or concrete foundations which are damaged during the removal of the existing staircase.

The staircases are not used as or allocated as fire escapes, just as rear access. The rear of the building does not face a public road, only an access road to the rear of the building.

Has the work or change of use already started?

🔾 Yes 🛛 💿 No
