Good Morning Martin,

I write further to your consideration of the above application and in relation to the amendments that you have sought in respect of design and drawing information.

I attach the amended drawings that I understood were sufficient to overcome your concerns.

I should be grateful if you could advise me of the current position in relation to the application and whether you can confirm that you are now able to support the proposal such that you can invoke the five-day protocol with the Parish Council.

I am, of course, happy to enter a further time agreement should it be necessary.

Kind regards,

Paul.
