

Ref: SDNP/21/00291/HOUS

Proposed building of Garden Studio, 9A Vinson Road, Liss, GU337NE

Lighting Statement

There will be no external lights fitted to the building.

Two small skylights are proposed, (50cmx50cm} both for extra daylight and with the intention of stargazing at night. These will be fitted with blackout blinds when not in use.

A blind will be fitted to the large window.

Curtains will be used in front of both of the folding doors.

The stained glass window will be small, approximately 15cm x 80cm and will be made with opaque glass and will not emit a lot of light.

My intention is for the cabin to be a relaxing 'off grid' experience, without mains electricity. At night I hope to only rely only on candle light and lamps, but if this is insufficient I propose installing a solar panel on the roof between the skylights. If so interior lighting will be kept to a minimum.
