## 4. What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will	need
to be supplied in order for the Local Planning Authority to determine the application.	

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?	Q Yes	🖲 No
Are you wishing to carry out works to tree(s) in a conservation area?	Yes	© No

#### Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question	Yes	No
'Identification of Tree(s) and Description of Works')?	_	_

#### 5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species

- The number used on the sketch plan); and

- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled

- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

T1: Leylandii Tree: Crown lift by 2m to allow more light and to walk under to mow lawn. Lightly trim sides to ensure a tidy finish. Tree around 10m - 12m tall.

T2: Apple Tree: Trim top by 1.1m and reduce sides by around 0.4m and general pruning, keeping proportions, to maintain fruit production and ensure it does not grow too big to block light. Tree around 4m tall.

#### 6. Tree Ownership

Is the applicant the owner of the tree(s)?

🖲 Yes 🛛 🔾 No

It is an important principle of decision-making that the process is open and transparent.	Q Yes	No
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.		
Do any of the above statements apply?
