

Proposal: Sycamore - Fell Silver birch – Trim

Site Address: 34 Penrose Way, Four Marks, Alton, GU34 5BG

Dear Sir/Madam

1. Please find sketch plan attached below.
2. We wish not to re plant due to our garden being fairly small and the reason for felling the sycamore is to allow more light in, as during the summer months the sycamore blocks the sun in our garden so planting more will eventually block the sun again hence the reason for not wanting to replant.
3. We wish to reduce the size of the silver birch by roughly 600-800mm I have attached a photo of the silver birch with a circle indicating where we wish to trim.
4. The works we intend to carry out on the sycamore is to fell the tree and remove the stump.

Kind regards Jake Marlow
