

AIR QUALITY ASSESSMENT

Consultants Environment Assessments Ltd have been appointed to carry out an air quality assessment in respect of the development of a four-storey MSCP at Queen Alexandra Hospital, Portsmouth.

Initial assessments and tests were carried out on site on 5th January 2021.

These files were collected on 3rd February 2021 and then submitted to the laboratory on the same day.

A full report commenting on these results will be circulated in week commencing 15th February 2021.
