***Please see attachment***

**Proposal:**

Provide a detailed description of proposed works	<p>The tree has died and been rotting for some time. Part of the rotting branches fell and caused damage to the neighbour's boundary. If anymore of the tree rots and falls it could fall onto my property, or fall onto the neighbour's garden where there are children playing. It is a risk and needs to be safely cut down to prevent further damage or risk to anyone.</p> <p>The plan is to engage a professional tree surgeon to safely cut the tree down.</p>

**Reason:**

Describe why the works are an exception	<p>The tree has died and been rotting for some time. Part of the rotting branches fell and caused damage to the neighbour's boundary. If anymore of the tree rots and falls it could fall onto my property, or fall onto the neighbour's garden where there are children playing. It is a risk and needs to be safely cut down to prevent further damage or risk to anyone.</p>
---	---

**Photographs:**

Are you providing photos?

Describe what photos show

Photos are showing the dead tree that needs to come down and also the damage caused already where part of it which has rotted fell destroying other trees and bushes and falling on the neighbour's boundary.

**Replacement Proposals:**

Do you have a preference for replacement planting?

Describe preferred replacement trees and reasoning

No current plans but may well plant a new tree in due course. The area is already wooded so there are many other trees.
