TP/LNE/2021-032

23rd February 2021

Dear Sir/Madam,

**DISCHARGE OF CONDITION RELATING TO LISTED BUILDING CONSENT
WP/20/00724/LBC REPLACEMENT OF EXISTING CAST IRON BRACKETS, PLATFORM
ONE CANOPY, WELLINGBOROUGH RAILWAY STATION**

Please find enclosed a set of application forms and accompanying details for the discharge of condition no 4 relating to works associated with the cast iron brackets of the canopy at Wellingborough railway station. Consent was granted (application 20/00724) on 23rd December 2020.

The condition for which discharge is sought is:

Condition 4 – Details of brickwork treatment:

Prior to the 'breaking out' of the cast iron brackets from the wall, a method statement detailing this careful process, shall be submitted to and approved in writing by the local planning authority, to avoid the damage to the surrounding brickwork and prevent the loss of historic fabric. The works shall thereafter be carried out in accordance with the approved particulars.

Please find enclosed a report from our contractors, Amey, detailing the method to be employed in relation to the breaking out of the cast iron brackets.

As this is for the discharge of a condition relating to listed building consent no fee is payable in this instance.

Please let me know if you require any further information.

Yours Faithfully

Tony Rivero
Town Planning Manager EM & LNE
