

Existing wall type shown indicative.

Mechanical anchor fixing (to suit specification)

Enhanced EPS insulation used in reduced thickness adjacent door frame. Thickness of EPS to be determined on site and to be maximum permissible thickness as to not impede on operation of door.

Parge coat applied to face of brickwork to act as vapour control layer

Brick effect render indicated indicative. Refer to elevations of finish locations.

Door to be moved forwards in reveal. Refer to Section Detail SD7 and SD14 for further details

EWI System to be tapered down to door frame so that the door can swing unimpeded and ironmongery can be easily operated..

Mineral wool insulation EWI system to be installed as per manufacturers details and specification.
