---

Dear Lisa,

Please find attached three more drawings in support of our application showing current and proposed elevations for the Potting shed which we hope will become the plant and changing room and the proposed layout for part of the changing room.

I have also updated our D&A and Heritage statement and I would be grateful if you could substitute this for the original one.

We need to add listed building consent to our planning application.

Thank you for your help.

Regards

Paul Watkinson
