

BREEAM UK New Construction 2018 Assessment Report

General information

BRE Assessment reference no.	TBC
Client name	Countess of Chester NHS Trust
Building end user/occupier	NHS Trust
Assessor name	Matthew Gibson/ Matthew Adams
Assessors role	Director
Assessor organisation	Energy Council

Building details

Building name	Same Day Emergency Care Facility
Building address	Countess of Chester Hospital NHS Trust
	Countess of Chester Health Park
	Liverpool Road
County	Chester
Post code	CH21UL
Country	England
BREEAM scheme	New Construction
BREEAM version	2018 (SD5078)
BREEAM UK 2018 technical manual issue number	SD5078 Issue 3.0
Project scope	Fully fitted
Building type (main description)	Healthcare
Building type (sub-group)	Healthcare - General acute hospital
Does this healthcare building have inpatient areas?	Yes
Does this industrial building have an office area, or other occuped spaces?	
Assessment stage	Design (interim)
Building floor area (GIA) m ²	2000
Building floor area (NIFA) m ²	1900
Is the building designed to be untreated?	No
Building services - heating system type	Wet system
Building services - cooling system type	Comfort cooling
Are commercial or industrial-sized refrigeration and storage systems specified?	No
Are building user lifts present?	Yes
Are building user escaltors or moving walks present?	No
Are laboratories present?	No
What percentage of total building area do laboratories represent?	
Are there fume cupboard(s) and/or other containment devices present?	
Are there any water demands present other than those assessed in Wat 01?	Yes
Does the building have external areas within the boundary of the assessed development?	Yes
Are there statutory requirements, or other issues outside of the control of the project, that impact	No
the ability to provide outdoor space?	
Are there any systems specified that contribute to the unregulated energy load?	Yes
Are the post-occupancy stage credits targeted in Ene 01?	Yes

BREEAM assessor declaration of assessment accuracy and quality

I, Matthew Gibson/ Matthew Adams, a qualified BREEAM assessor working on behalf of Energy Council confirm that the content of this report is to the best of my knowledge a true and accurate reflection of the performance of the above named building, as measured against the assessment criteria and reporting requirements of the BREEAM Scheme Document (SD5078). Furthermore, I confirm that this assessment and the information on which it is based has been checked and verified in accordance with BRE Global Ltd's UKAS accredited BREEAM operating procedures for BREEAM assessments and assessors, as described in the technical scheme document (SD5078) and associated BREEAM operational documents.

BREEAM Assessor Signature: Date

Disclaimer

This report is made on behalf of Energy Council. By receiving the report and acting on it, the client - or any third party relying on it - accepts that no individual is personally liable in contract, tort or breach of statutory duty (including negligence).

Disclaimer Conflict of Interest - Where an assessor is employed by the same company as a project/design team member(s) (e.g. energy assessor, suitably qualified ecologist or client representative etc) they must identify and manage any potential conflicts of interest and inform BRE Global Ltd as soon as they become aware of such a conflict. Where possible this should be made clear to BREEAM upon registration of the assessment.

BRE Global do prohibit an assessor from verifying compliance with scheme criteria where they themselves have been directly involved in achieving or implementing a compliant solution, i.e. an assessor cannot assess their own work, for example they cannot be the architect on a project and the assessor. A current exception to this rule is where the assessor is also acting as an accredited BREEAM Advisory Professional on the project.

Where there is a conflict of interest or potential for one, BRE Global Ltd will escalate the assessment report to a more detailed level of quality assurance checking. This will be done to reduce the risk to assessors and clients in the event that a certification outcome is challenged. Additional levels of monitoring may result in additional charges (FS036) being made to the licensed organisation that employs the assessor.

	% improvement over building regulations (CO2-eq)	25.00%			

Assessment criteria (exemplary credits)	Compliant?	Credits available	Credits achieved
Zero net CO ₂ -eq emissions	Please select	3	0
Equivalent % of additional emissions from unregulated energy that are offset by LZC sources			
Is the building designed to be carbon negative?			
If the building is defined as 'carbon negative' what is the total (modelled) renewable/carbon		kWh/yr	
neutral energy generated and exported?			

Assessment criteria	Compliant?	Credits available	Credits achieved
Has a design workshop focusing on operational energy performance been carried out?	Yes]	
Additional energy modelling to generate predicted operational energy consumption figures	Yes	4	4
carried out?			
Predicted energy consumption targets by end use, design assumptions and input data	Yes		
reported?		-	
Risk assessment to highlight any significant design, technical, and process risks?	Yes		
Has the operational energy performance of the building been substantially improved?]	

Assessment criteria (exemplary credits)	Compliant?	Credits available	Credits achieved
Maximum credits achieved in Ene 02 Energy monitoring?	Yes	2	2
The client or building occupier commits funds to pay for the post-occupancy stage?	Yes		
The energy model is submitted to BRE and retained by the building owner?	Yes		

Total BREEAM credits achieved	8
Total contribution to overall building score	5.57%
Total BREEAM exemplary credits achieved	2

Assessor comments/notes:

Ene 02 Energy monitoring

No. of BREEAM credits available	2	Available contribution to overall score	1.39%
No. of BREEAM exemplary credits available	0	Minimum standards applicable	Yes
