Good afternoon,

I am supporting Mark Shillito in the drainage design for this application. In response to point 1 in your letter please find attached land ownership and treatment unit information.

With regards to the ownership, the planned route will only be under my client's land or the highway boundary as we understand the situation currently. I attached plans of both areas of ownership.

Lastly, if possible, I would be grateful if you could a final drawing with the package of information. This historic plan shows some of the previous drainage arrangement of the site which I believe will be relevant for the technical consultees when determining a suitable discharge rate.

Kind regards,

Laura Barlow CEng MICE
