- Stone with poor pointing (appears to have had linostone applied over face and joints are not defined)
- Linostone or cement to be carefully removed. Assume 30% indentation, 50% application of ST.one mortar repair and 20% brushing back required to substrate.
- Indents required
- Joints to be raked out and repointed in lime-based mortar
- Discoloured stone to be cleaned using DOFF system
- Area of stone to be raked out and repointed in lime-based mortar
- Damp stone - source to be stopped and stone allowed to dry out prior to treating with DOFF system
