£595.00 – £670.00 (Ex.VAT) Horizontal Twin Secure Bike Locker AS

Product Features

British made product, the **Twin Bike Locker** is made from strong, thick, galvanised (weather proof) steel.

- At 99kg in weight (that's over 15 stone) these are substantial units suitable for public and private use.
- Perfect for the side of a house or flat – Compact design.
- Are you left-handed? Door handing of this unit can be changed for the user (either right-handed or left-handed) and to suit your location – **Please specify when placing your order.***
- Supplied with a 10 Year Warranty – our units are built to last.
- Fitted with our tough 3 Point Locking System For Bike Security
Large single door access making it easy to wheel your bikes in and out.
- Multiple units bolt together for additional strength and security.
- An open floor area means there is no

restriction on how you store your bike in.

- Bike storage with helmet and kit hooks
Includes 2 kit hooks – Hang helmets and bags with your bikes.
- Units can be bolted down to the ground using the supplied securing bolts.
- Self assembly option using the easy to follow illustrated instructions.
- Dimensions: W900mm x H1200mm x D1900mm
- This **all-metal secure bike locker** is fitted with the same ultra tough 3-point locking system as our top end units. The supplied kit hooks are perfect for storing helmets and clothing inside this **metal bike storage** unit together with your bike.
